## **Stability & Durability**

For almost 100 years, vinyl flooring has been a popular alternative to more expensive flooring types, such as wood or tiles. Vinyl flooring is durable and versatile. It is sturdy, hardwearing and is able to withstand heavy foot traffic, making it ideal for all residential and commercial living.

## **Easy Care & Maintenance**

Vinyl is one of the easiest floorings to maintain, however that doesn't mean it can be neglected. Leaving grit and dirt on the floor can lead to scratches and damage to the surface, to ensure this doesn't happen you can simply use a damp mop and vinyl cleaner to remove dirt or stains.

## **Appearance & Cost-Effective**

Vinyl comes in a variety of timber flooring designs meaning that there is something for everybody. One of the biggest benefits is that there are great replica colours & designs for wood. This creates an affordable flooring option for something that looks expensive. Clever Choice's Vinyl collection is a cost-effective solution for all your flooring needs.

## **High Wear & Water-Resistant**

Vinyl is a great water-proof material making it an excellent choice for rooms with high moisture like a bathroom or a laundry room. Also suitable for offices, child care facilities, retail shops and other commercial needs.

## **For peace of mind**

Your flooring investment is secure with this great product offering long-lasting structural and wear warranties.

Featured photographs are printed reproductions and should only be used as a guide, indication, or point of reference. Before making a purchasing decision always inspect actual samples at your nearest retailer. Colour and appearance can vary. Whilst every effort is taken to ensure the information presented is accurate and free from error, it is possible that some data may change without notice.

Specifications are subject to manufacturing tolerances and may be changed without prior notice. \* Please refer to our website [www.cleverchoice.com.au](http://www.cleverchoice.com.au) for warranty terms and conditions, product installation guidelines, care and maintenance guides, or to download product test reports. These documents are also available from your place of purchase.

\* All floor surfaces do require regular cleaning to remove dirt, grit, dust, sand, and other debris that could result in scratching and excessive wear. UV rays from direct sunlight can cause a change in colour, so rearranging rugs and keep sun-filtering blinds/curtains closed can prevent direct sunlight on the floor. This is not due to product failure and is not covered by the warranty.
